

PERMIT TERM 48C – Dam/Reservoir Enlargement

Title: Dam Supervision

When Used: When Division of Safety of Dam's approval has not yet been obtained for (1) dams 25 feet or more in height (from downstream toe to spillway crest) provided more than 15 acre-feet of water is impounded, or (2) dams that impound 50 acre-feet or more of water provided they are more than six feet in height.

Term:

If the storage dam will be of such size as to be within the jurisdiction of the Department of Water Resources as to safety, construction under this permit shall not be commenced until the Department has approved the plans and specifications for the dam.
